

### Valve Saver - Valve Cleaner

Valve Saver is a combination valve cleaner and penetrating lubricant engineered to free up and clean out difficult or impossible to operate lubricated valves.

Lubchem's Valve Saver penetrates and cleans residual gum, lacquer, hardened sealants and lubricants. Valve Saver also penetrates and loosens rust and corrosion deposits extending the life and performance of all types of lubricated valves. When used regularly, it will prevent additional build up.

### Features

- Compatible with all valve lubricants
- Cuts residual gum and lacquer deposits
- Removes rust and corrosion
- Do not use in oxygen service
- Temperature range: -40° to 400°F

### Application Procedure

Apply Lubchem Valve Saver with conventional lubricating equipment. Turn valve slowly and repeat the process until valve opens freely. After the valve is operable, lubricate with one of Lubchem's high quality valve lubricants.
